

## Screening Status for Breast, Cervical and Colorectal Cancer

(Report Date: 07-Mar-2017)

<b>SMITH, Sally Mary</b>	<b>Age:</b> 54 years <b>Date of Birth:</b> 21-Mar-1963 <b>Gender:</b> Female <b>Alberta Unique Lifetime Identifier:</b> 123456789
--------------------------	--

Type	Last Screen Type	Date of Last Exam*	Result of Last Exam	Status	Qualifier
Breast	Mammogram	20-May-2012	Normal	Due for screening	As per recommendation of last exam
Cervical	Screening Pap Test	01-May-2012	Abnormal	Follow-up as clinically indicated	Due for repeat Pap or referral as appropriate. Please refer to Alberta TOP Clinical Practice Guidelines to determine treatment status of patient.
Colorectal	FIT	03-Jun-2016	Normal	Up-to-date	FIT every 1-2 years

**Cervical Cancer Screening:** Women with a history of hysterectomy may appear on this report.

**Colorectal Cancer Screening:** At the current time, the Alberta Colorectal Cancer Screening Program does not capture information about screening colonoscopy or diagnostic follow up. The status in this report is based solely on the availability of FIT or FOBT test results, and a 2-year screening interval with FIT.

*This report tracks patients active in the Alberta Cancer Screening Program (CSP) with the exception of a diagnosis of one of the above types of cancer, out of province and/or exempt. The status contained in this report does not replace clinical assessment and judgment based on individual history and the Alberta TOP Clinical Practice Guidelines (for a link to the guidelines, please refer to the Resources section of Netcare).*

**\*Newer screening exams may be available in other areas of Netcare due to a delay in data sent to the CSP.**

Guideline for routine screening: Breast – Women 50-74 years, screening mammography every 2 years; Cervical – Women 25-69 years, Pap every 3 years; Colorectal – all genders 50-74 years, FIT every 1-2 years.
