3. User default to set CDV Tree Tooltip preference

Change Description:

A setting has been added to the users My Details that allows each user to set a CDV Tree Tooltip preference.

Change detail:

New functionality within My Details allows users to set one of the three options as a preference for tooltips on the CDV Tree.

1. By default, tooltips are set to "On". Users will see Results tooltips as they currently see them today.
2. If the user selects "Off" they will not see any tooltip information on the CDV Tree. **NOTE:** the ability to mark as unread is also turned off with this option.
3. If the user selects Minimum fields, the Title, Date and Read/Unread functionality are available to the user.

NOTE: For users who wish to see the Authoring Provider or Facility for reports in the Consultations folder, the recommendation is to leave tool tips on.
