

## Netcare Portal Update

### 1. COVID-19 Results Display in the Microbiology Folder

<b>Description:</b>	COVID-19 results in Netcare
<b>Detail:</b>	<p>COVID-19 test result are available in Netcare.</p> <ul style="list-style-type: none"> <li>Results display in the <b>Microbiology</b> folder.</li> <li>Positives results display in <b>red</b> font</li> </ul>

### Searching for Results in Netcare

Results can be searched for on the Limited Documents and All Documents tabs.

- Type the first few letters of the result into the Search field as indicated in the screenshot below.
- You do **not** need to type the entire result name or press Enter.
- Matching results will automatically appear in the CDV Tree.

The screenshot shows the Netcare portal interface. At the top, there are tabs for 'Limited Documents', 'All Documents', 'Flowsheets', and 'Patient Event History'. The 'All Documents' tab is selected. Below the tabs, there are two main panels: 'Clinical Documents' on the left and 'Patient Demographics' on the right. In the 'Clinical Documents' panel, the search field contains 'cov' and is circled in red. Below the search field, there are buttons for 'Read' and 'Unread'. The search results show a folder named 'Microbiology (1 / 1)' which is expanded to show a document titled '13-Mar-2020 COVID-19 Nucleic Acid Test'. The 'Patient Demographics' panel shows fields for Date Of Birth, Age, Sex, and Eligibility Start Date.
