IMPORTANT NOTES ABOUT SAVING: If you have a locally-hosted server for Accuro, the most common location to save documents is the *ReadyforAccuro* folder. This can normally be found on the C:\ drive or as a shared folder under *This PC*.

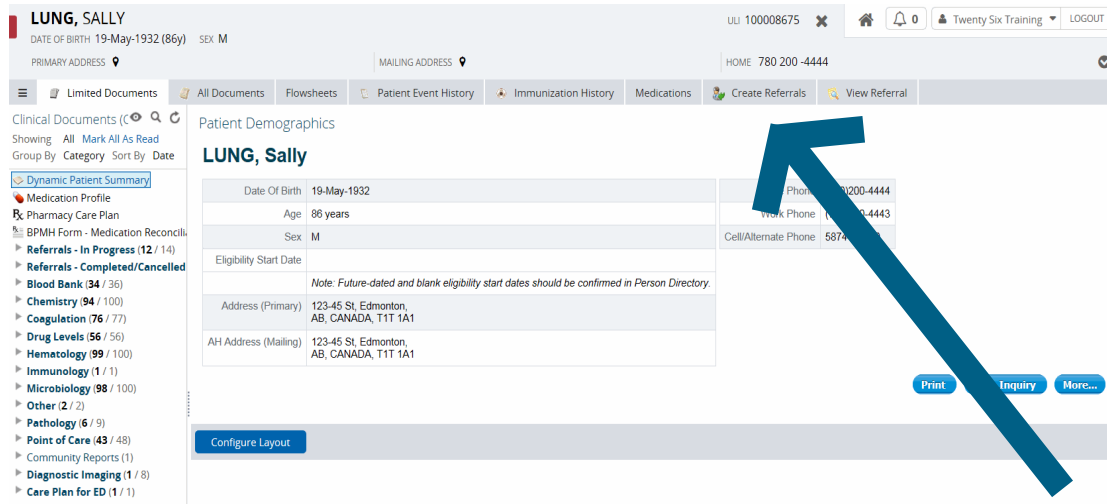

If you have a hosted version of Accuro (ASP) and access it through Citrix, you will need to make sure you are saving the file in the correct location. When you are asked to save the file, first select the Local Disk (C:) from the *Save In* dropdown. This will tell the file to save to your computer instead of the server where Accuro is being hosted.

The file can be saved to any location on your computer. For hosted sites, it is not recommended to save to the *ReadyforAccuro* folder. Files saved to hosted-site's *ReadyforAccuro* folder are transferred to the server to be assigned to patient charts like faxes and scans. Saving to a different location will ensure the file stays on your computer and can be selected to attach to eReferral.

Remember to delete files from your local drive or refer to your clinic's best practices for file management once you no longer need the files.

3

Attach the letter to eReferral. Log into Alberta Netcare (<http://www.albertanetcare.ca>) and search for the patient you want to submit the referral for. When you are in the patient file, click **CREATE REFERRALS**.

Under **SELECT A FORM**, select a **REASON FOR REFERRAL** and choose what you want to **REFER FOR**. Click **CREATE**.

A screenshot of the 'Request for Service' form. The 'Select a Form' section is visible, showing two dropdown menus. The first dropdown is labeled 'Reason for Referral *' and has 'Abnormal findings on bre' selected. The second dropdown is labeled 'Refer For *' and has 'Consult - Surgery - General Surgery' selected. A blue 'Create' button is located at the bottom of the form.

Once the referral form opens, begin filling in all information, including everything with a red asterisk (*).

When you reach **REFERRAL DETAILS**, choose **ATTACH REFERRAL FORM** from the **REFERRAL FORM SOURCE** field. Fill in the **REASONS FOR SENDING THIS REFERRAL**, **PATIENT'S CURRENT STATUS** and **CURRENT AND PAST MANAGEMENT FIELDS**. Scroll down to **ATTACH REFERRAL FORM**, click **BROWSE** and choose the file you want to upload.

Referral Details

Clinical Pathway URL

Referral Form Source * eReferral Form Attach Referral Form

Reason for sending this referral

Patient's current status * Stable Worsening Other
Please provide details about if the patient's condition is stable or worsening. What you think is going on? Key symptoms and findings. Symptom onset/duration. Red flags.

Current and past management
Please provide details of treatments tried and outcome(s). Consultation testing (previous, concurrent or if none, specify none).

i For this referral to be accepted, please complete the **Findings and/or Investigations** column for each requirement in the table below.

Attach Referral Form

Attach Referral Form *
Please attach a referral form from your desktop. File size restricted to 5MB. Multiple files can be uploaded up to a limit of 25MB.

4

Submit your eReferral Consult Request. After you have completed the remainder of the eReferral form, click **SUBMIT** at the bottom of the page. Your referral will be received in real time and you will now be able to track the referral status and manage the referral using eReferral.
