New Consult Request Reasons for Referral Added to Internal Med – Adult Gastroenterology

Physicians and their clinical support staff will see six new eReferral Consult Request reasons for referral added to Internal Med - Adult Gastroenterology in the Edmonton Zone starting on June 18, 2020, including:

- Celiac disease (suspected or refractory symptoms)
- Dyspepsia
- Gastroesophageal reflux disease (GERD)
- Helicobacter pylori (H. pylori) infection
- Endoscopy for iron deficiency anemia
- Hepatitis C

Important note: All routine referrals are being accepted, however there may be a delay in processing your Consult Request or booking an endoscopy procedure due to the COVID-19 pandemic. At this time, only urgent or semi-urgent referrals that require an endoscopy are being booked.

Coming Soon – New Additions to eReferral Advice Request

In late June 2020, **Surgery – Podiatry** will be added as a new specialty to eReferral Advice Request in the Calgary Zone. In addition, three existing Advice Request specialties will be expanded to the following Zones:

- OBS/GYN – Edmonton Zone
- Surgery – General Surgery – South Zone
- Urology – Calgary Zone

More information about these changes will be shared with users in the coming weeks. If you have any questions, please email access.ereferral@ahs.ca or call 1-888-733-3755 (M-F).
