The "Forgot Password" link will take you to Identity Manager where you can reset your password.  
After finishing in Identity Manager, you will have to go back to the application you were initially trying to log on to.

Please note: Identity Manager has been migrated as of June 4. As a result, you must go to Identity Manager and select your Security Questions.  
These questions are used to verify your identity if you forget your password.  
Click here to proceed to Identity Manager's profile page.  
Note that you will get this login page again. Once it is re-displayed, enter your userid and password and click LOG IN.
